

## Team Tab after Preliminary Rounds

Regrettably, Namibia was unable to attend the Championships.

The Chief Adjudicators interpret Rule 6.4 of the Tournament Committee And Debate Rules as requiring that:

- (a) A team that would have debated against Namibia is taken to have won the debate if it won four of its seven other debates; otherwise, the team is taken to have lost the debate.
- (b) A team that would have debated against Namibia is taken to have received three judges for the debate if the average number of judges in other debates is higher than 2.5, two judges if the average number of judges in other debates is greater than 1.5 but less than or equal to 2.5, one judge if the average number of judges in other debates is greater than 0.5 but less than or equal to 1.5, and zero judges otherwise.
- (c) We recognise that this may mean that a team receives two or three judges but receives a loss; conversely, a team may receive zero or one judge but receive a win. This is entirely consistent with the principle in rule 6.4 that teams receive additional wins based on their existing number of wins, and receive additional judges based on their existing number of judges.
